**\*\*THIS IS A SPECIAL PRICE OFFERED TO CUSTOMER TO HELP WITH THEIR CURRENT SITUATION.**

### LIMITED 30 DAY WARRANTY ON USED ENGINES/PARTS

Important: All mechanical components must be installed, maintained, and adjusted by qualified technicians.

1. In the case of core deposit: Cores must be returned within 30 days or core deposit is forfeited.
2. All retail used engines are under warranty against cracked blocks or heads or bad crankshaft. All engines must have new oil and filter upon installation. They must be properly maintained throughout the warranty period.
3. Engines are left as complete as possible for the convenience of the installer and have been "run" tested before leaving our facility unless it's a Surplus New Engine, those are not run tested. We reserve the right to replace said used engine with exact or similar model if after run testing we find a problem. We will make every effort to send the engine listed above and pictured below and if we must replace the engine before shipping we will make every attempt to notify you before we ship. However, in any dispute the engine received shall be what is outlined above in the "Used Engine" section.
4. This warranty does not cover attached items or accessories such as but not limited to water pump, injector pump, injectors, distributor, throttle body, air flow meter, turbo, waste gate, Fuel Pump, Alternator, Starter.... etc. It is a Block, Crank & Head warranty.
5. Used engines are under warranty for a period of 60 days from the date received by the customer, no exceptions. Warranty covers replacement or repair of the engine upon approval by JSJ Diesel Sales Inc. only and does not cover labor or any other incidental expenses required to remove or install the engine. We do not guarantee blown head gaskets or overheating due to defective thermostat, water pump, radiator hoses, or insufficient coolant & Oil.
6. Surplus – these engines are purchased by us with only a "Turn 360 and in Complete condition" warranty, therefore we can only offer that same warranty. There is no time frame, or any type of failure warranty offered on Surplus engines, so we suggest you install the Surplus engine right away to confirm it's not DOA and its Complete and Turns 360. Surplus engines are "exchange only" if they are received incomplete or do not Turn 360 when you receive them. In some cases, there is still a manufacturer's warranty but that must be determined by the customer. JSJ Diesel does not transfer that warranty to you. If there is a part missing we will make every effort to send the part.
7. Oil seals, gaskets, and hoses are not under warranty; they should be replaced upon installation of the engine.
8. All warranty claims must be presented to an authorized agent of JSJ Diesel Sales Inc. prior to any attempts to repair the engine within the 60-day warranty period.
9. JSJ Diesel Sales Inc. at its option may replace the part(s) or refund the original purchase price of the part(s) less shipping cost(s) there is no refund for full used engines, only replacement of the same or comparable engine as per our warranty.
10. ECM Replacement: If this invoice reads the words "ECM replacement" that means the engine was pulled from a truck purchased from an insurance company. The original ECM was not included, and we will supply you with a replacement ECM from our stock. Miles shown on replacement ECM and other information may not match actual miles. Any information stated in the invoice with those words was taken from the insurance company records and or the truck's odometer.
  - a) Horsepower is determined by the ECM on electronic engines, therefore the HP stated above in the description section reflects what the ECM has been set to.
  - b) Engine Year is listed as a courtesy and may be incorrect, most engines are built in blocks of years such as 2004 to 2007 or 2008 to 2010. Example: 2004, 2005, 2006 and 2007 would be the same engine for application purposes. JSJ will ensure that if a 2005 is requested and you receive a 2004 that it's the same as the 2005.
11. Engine Damage due to shipping: If the engine is damaged due to the shipper/carrier all claims will be filed by JSJ, if the claim is paid the money will be used to replace the customer's engine or repair it. JSJ Diesel Sales Inc. is not liable or responsible once the shipper picks up the engine. JSJ does not have to replace the damaged engine until the claim is paid by the shipper's insurance company. If the customer wants a replacement engine right away without waiting for the determination of the shipper's insurance company the customer must purchase the replacement engine. Some Carriers only pay \$0.50 or \$1.00 per pound, JSJ always purchases additional insurance at our expense to cover the cost of full replacement, but some carriers do not offer the additional insurance.
12. All disputes of any nature arising out of this transaction must be done so in the Country of "Broward" in the State of Florida.
13. This agreement is considered accepted by all parties once payment is received by JSJ.
14. Warranty is voided by: a) Misuse, negligence, alterations, accident, or fire. B) Improper installation or repair. C) Failure to follow the maintenance requirements.
  - d) Lack of lubrication and/or overheating.
  - e) Any repair or replacement not authorized by JSJ Diesel Sales Inc. done to the engine without our written consent.
15. Used starters and alternators are not guaranteed to work at the time of purchase. There is no guarantee for improper installation, faulty voltage regulator or poor electrical connections by the customer. Used A/C compressors are not guaranteed. Dryers and expansion valves must be replaced otherwise warranty is void.
16. We provide you with the engine serial number, it is the customer's responsibility to make sure the engine is the one they need, we are not responsible for application changes, nor can we give any advice about the same.
17. BODY PARTS are sold "AS IS" - ABSOLUTELY NO WARRANTY ON ELECTRICAL PARTS.
18. IMPROPER INSTALLATION OF ANY PART WILL VOID ANY AND ALL WARRANTIES
19. WARRANTY DOES NOT COVER LABOR COSTS, TOWING CHARGES, CAR RENTAL, LOST WAGES, ETC.
20. This invoice hereby incorporates the Terms and Conditions contained within the website of JSJ Diesel Sales. The Terms and Conditions can be located at <https://www.jsjdiesel.com/tos.asp> and <https://www.jsjdiesel.com/warranty.asp> - Your payment acknowledges the acceptance of these Terms and Conditions.
21. Please allow 2 business days' handling time before the engine will be shipped, unless otherwise specified.

I HAVE READ AND UNDERSTAND THE TERMS OUTLINED ABOVE:
